

## VU Institute of Mathematics and Informatics Annual Report 2011

Akademijos 4, LT-08663 Vilnius  
Tel. (+370 5) 2109 300, fax (+370 5) 2729209  
E-mail: [info@mii.vu.lt](mailto:info@mii.vu.lt)  
WWW: <http://www.mii.lt>

**Director** – Prof. Habil. Dr. *Gintautas Dzemyda*

### **STAFF**

74 research fellows (20 habilitated doctors and 44 doctors),  
62 doctoral students.

### **Main research trends of the Institute**

#### **Doctoral Dissertations maintained in 2010**

#### **Conferences and Seminars organised in 2010**

#### **INFORMATICS METHODOLOGY DEPARTMENT**

#### **NUMERICAL ANALYSIS DEPARTMENT**

#### **PROBABILITY THEORY AND STATISTICS DEPARTMENT**

#### **RECOGNITION PROCESSES DEPARTMENT**

#### **SOFTWARE ENGINEERING DEPARTMENT**

#### **MATHEMATICAL LOGIC SECTOR at the SED**

#### **STOCHASTIC PROCESSES DEPARTMENT**

#### **SYSTEMS ANALYSIS DEPARTMENT**

#### **OPERATIONAL RESEARCH SECTOR at the SAD**

### ***MAIN RESEARCH TRENDS OF THE INSTITUTE***

- Probability Theory and Mathematical Statistics; Finance and Actuarial Mathematics; Differential Equations and Numerical Methods for their Solution; Mathematical Logic and Algorithm Theory;
- Recognition Processes, Data Analysis, Multi-Modal Optimization Problems, Multimedia Technologies and Interactive Systems;
- Theoretical and Methodical Fundamentals of Informatics, Information and Communication Technology (ICT) in Education, Computer Networks and Software Engineering Methods and Applications in the Creation of New Information Technologies.

## **DOCTORAL DISSERTATIONS MAINTAINED IN 2011**

- Monika Vilkienė “Investigations of the Accuracy of Approximations of Semigroups”
- Alma Molytė “Investigation of Combinations of Vector Quantization Methods with Multidimensional Scaling”;
- Svetlana Roman “Green’s Functions for Boundary-Value Problems with Nonlocal Boundary Conditions”;
- Julius Andrikonis “Effective Method to Obtain Terminating Proof-Search in Transitive Multimodal Logics”.

## **CONFERENCES AND SEMINARS ORGANIZED IN 2011**

- 4th National Young Scientists Conference of the Lithuanian OR Society “Operational research for business, engineering and information technologies”, September 30, 2011, Kaunas, Lithuania;
- 3rd International Seminar on “Data analysis methods for software systems”, December 1–3, 2011, Druskininkai, Lithuania;
- International Doctoral Consortium „Informatics and Informatics Engineering Education Research: Methodologies, Strategies and Implementation“, November 30–December 4, 2011, Druskininkai, Lithuania
- Differential Equations and Numerical Analysis seminar, periodicity: on the average twice a month, on Wednesdays, at 11 a.m.

## **INFORMATICS METHODOLOGY DEPARTMENT**

Akademijos 4, LT-08663 Vilnius  
Tel. +370 2109732  
E-mail: valentina.dagiene at mii.vu.lt  
**Head** – Prof. Dr. Valentina Dagienė

### **Principal researchers:**

1. Prof. Habil. Dr. Valentina Dagienė

### **Researchers:**

1. Dr. Vaiva Grabauskienė,
2. Dr. Tatjana Jevsikova,
3. Dr. Jevgenij Kurilov;
4. Dr. Jūratė Skūpienė

### **Assistant researchers:**

1. Viktoras Dagys

### **Technical assistants:**

1. Remigijus Andžius,
2. Gabrielė Daukšaitė,
3. Antanas Grincevičius,
4. Ieva Jonaitytė,
5. Giedrė Svetikienė,
6. Rimantas Žakauskas.

### **Doctoral students:**

1. Eglė Jasutė,
2. Anita Juškevičienė,
3. Svetlana Kubilinskienė,
4. Silvija Séríkovienė,

5. Bronius Skūpas,
6. Jūratė Urbanienė,
7. Lina Zajančkauskienė,
8. Inga Žilinskienė.

## **RESEARCH INTERESTS**

Technology enhanced learning, teaching programming and informatics, localization of digital resources, models of quality evaluation of educational system components.

## **RESEARCH PROJECTS CARRIED OUT IN 2011**

### **Projects Supported by University Budget**

Themes:

1. Engineering Research for Technology Enhanced Learning;
2. Research on software localization.

Main results: 1) methods for engineering education research, 2) development of methods and specifications for evaluation of the quality of education system components, 3) derivation of fundamentals and advanced informatics concepts and proof their appropriateness to use in contests.

### **Projects, Programmes, Issues Supported by Lithuanian State Science and Studies Foundation**

International conference „Informatics Fundamentals and Computer Fluency“, Druskininkai, 2011-05-10-15 (participants from 23 countries).

International doctoral consortium Informatics and Informatics Engineering Education Research: Methodologies, Strategies and Implementation, 2011-11-29 – 12-04.

Head of Department Valentina Dagienė has organized IFIP conference in Mombasa and several workshops for teachers in Nairobi.

### **Governmental Science Programmes and Research Projects Ordered by the Branch Ministries**

Science for business and society (Mokslo verslui ir visuomenei). Agreement Nr. S-VP2-1.4-ŪM-03-K-01-019. 2009-11-02–2011-10-31. Prof. V. Dagienė

### **Ordered Research Projects**

Development of data of the Term Bank of the Republic of Lithuania.

Agreement Nr. VP-1/2011/APS-580000-182. 2011-01-13–2011-12-31. S. Meškauskienė

### **International Science Programmes and Projects**

te@ch.us - Learning community for Web 2.0 teaching. Ref. Nr. 504333-LLP-1-2009-1-DE-COMENIUS-CMP. 2009–2011. Prof. V. Dagienė

Nordic Network for Engineering Education Research (NNEER). 2009–2012. Prof. V. Dagienė

## **PUBLICATIONS**

### **Monograph**

### **09P - Informatics**

1 Kurilov, Jevgenij [Kurilovas, Eugenijus]; Dagienė, Valentina. Evaluation of quality of learning software : basics, . concepts, methods : monograph. Saarbrücken : LAP Lambert Academic Publishing, 2011. 104 p. ISBN 9783838396934.

### **Teaching and/or methodical material(s)**

## **09P -Informatcs**

1 Dagienė, Valentina (sudaryt.); Jonaitytė, Ieva (sudaryt.). Bebras, 2010 : tarptautinio informatikos ir . informacinių technologijų konkurso užduotys su sprendimais / sudarytojos: Valentina Dagienė, Ieva Jonaitytė. Vilnius : TEV, 2011. 92 p. : iliustr. ISBN 9786094330490.

## **Conference proceedings paper(s) (Thomson Reuters - ISI proceedings)**

### **09P - Informatics**

## COOPERATION

Aalto university (Finland): V. Dagienė continues Special course in computing education research for doctoral students (T-106.6500)

- Adger University, Norway.
- Bilbao University, Spain.
- Ecole Normale Supérieure de Cachan (ENS), France.
- ETH, Zurich, Switzerland.
- Groningen University, the Netherlands.
- Upssala University, Sweden.
- University of Eastern Finland of Joensuu and Kuopio
- Vienna Technical University, Austria
- Weizman Institute of Science, Israel.

- Muenster University (Germany): Survey of V.Grabauskienė and M.Weigend „Metaphorical Geometry“.
- Ugdymo plėtotės centras

## ***OTHER SCIENTIFIC ACTIVITIES***

### **V. Dagienė** (<http://ims.mii.lt/valentina/en/index.htm>)

- Editor-in-Chief of two international journals “Informatics in Education” (since 2002) and “Olympiads in Informatics” (since 2007).
- Expert of EU Eurostars Programme
- Representative of Lithuania in Education Committee TC3 under the International Federation for Information Processing (IFIP)
- Vice chair of the Technical Committee of IFIP for Education (TC3)
- Member of Steering Committee of International Olympiads in Informatics
- Co-chair of IFIP conference „ICT and Informatics in a Globalized Word Education“; Mombassa, Aga Khan Academy, Kenya, 2011-08-16-19.
- Chair of the 5th International conference joinnt with Olympiad in Informatics, Pattaya, Thailand, 2011-07-22-29.

### **V. Dagys**

- Vice chairman of Council of Lithuanian Computer Society (<http://www.liks.lt/en/>)
- Chair of Program Committee of 10th National Conference on Informatics in School Education (a part of multi-event “Computer Days – 2011”)

### **V. Grabauskienė**

- Long term Internship, supervisor prof. V. Dagienė. Agreement: Nr. 58/MTDS-580000-2033; (2011-01-03 to 2012-12-31)
- Intership in Muenster, Germany (2011-03-22 to 2011-04-25) and Bratislava, Slovakia (2011-10-25 to 2011-11-22).

### **T. Jevsikova**

- International Federation for Information processing (IFIP) TC3 WG3.1 (Informatics and ICT in Secondary Education) (<http://ifiptc.org/?tc=tc3>) – Junior member
- The Institute of Localisation Proffesionals – Associate member
- International conference ISSEP 2011 (Informatics in Schools: Situation, Evolution and Perspectives), <http://www.issep2011.org> – reviewer
- International conference IIGWE 2011 (ICT and Informatics in a Globalized World of Education), <http://www.iigwe2011.org> – reviewer

### **J. Kurilov**

- Member of Steering Committee of European Schoolnet (or EUN, the network of 31 European Ministries of Education)
- Member of Lithuanian national CEDEFOP and ReferNet Committees
- Expert-evaluator: PHARE, Leonardo da Vinci, eContentplus programmes, European Regional Development Fund
- Expert on preparation of feasibility studies and project documentation: European Commission, Ministry of Education and Science of Lithuania, Central Project Management Agency under the Ministry of Finance of Lithuania
- Expert of CEN LTSO (Learning Technology Standards Observatory) <http://www.cen-ltso.net/>
- Expert of IMS Personalizing Learning Workgroup

## **MEMBERSHIP IN SCIENTIFIC COMMITTEES**

- Scientific journal “Journal of Engineering and Computer Innovations” (JECI) <http://www.academicjournals.org/JECI/index.htm> : Associate Editor, reviewer
- Scientific journal “International Journal of Online Pedagogy and Course Design” (IJOPCD) [www.igi-global.com/IJOPCD](http://www.igi-global.com/IJOPCD) : reviewer
- Scientific journal „Educational Research and Reviews“ (ERR) <http://www.academicjournals.org/err2/> : reviewer
- Scientific journal „International Journal of Library and Information Science (IJLIS) <http://www.academicjournals.org/IJLIS/> : reviewer
- IGI Publishing (the books “E-Infrastructures and Technologies for Lifelong Learning: Next Generation Environments”; “Innovations in XML Applications and Metadata Management: Advancing Technologies”): reviewer
- IGI Global (the book “Innovations in XML Applications and Metadata Management: Advancing Technologies”): member of Editorial Advisory Board, reviewer
- Biannual scientific journal “Informatics in Education”, ISSN 1648-5831 [abstracted / referenced in INSPEC, SCOPUS, etc.] [http://www.mii.lt/informatics\\_in\\_education/](http://www.mii.lt/informatics_in_education/) : member of Editorial Board
- The annual European Conference on e-Learning (ECEL) [abstracted / referenced in Thomson ISI Web of Science, ISTP, ERIC] <http://www.academic-conferences.org/eCEL/eCEL-home.htm> : member of Programme Committee, reviewer
- The annual International Conference on Creative Content Technologies (CONTENT) [abstracted / referenced in Thomson ISI Web of Science, IEEE, INSPEC, ISTP], <http://www.iaria.org/conferences2010/CONTENT10.html> : member of Programme Committee, reviewer
- The annual International Conference on Networking and Services (ICNS) [abstracted / referenced in Thomson ISI Web of Science, IEEE, INSPEC, ISTP] <http://www.iaria.org/conferences2010/ICNS10.html> International Workshop on Learning Methodologies and Platforms used in the Cisco Networking Academy (LMPCNA) <http://www.iaria.org/conferences2010/LMPCNA.html> : member of Programme Committee, reviewer
- The annual International Conference on Software Engineering Advances (ICSEA) [abstracted / referenced in Thomson ISI Web of Science, IEEE, INSPEC, ISTP] <http://www.iaria.org/conferences2010/ICSEA10.html> : member of Programme Committee, reviewer
- The annual International SE@M (Search & Exchange of e-Learning materials) Workshop within the annual International Scientific Conference EC-TEL (European Conference on Technology Enhanced Learning). ISSN 1613-0073 [abstracted / referenced in CEUR WS Proceedings] <http://ftp.informatik.rwth-aachen.de/Publications/CEUR-WS/Vol-385/seam00.pdf> : member of Programme Committee, reviewer
- The annual International Conference on Sustainable Development “Knowledge-Based Technologies and OR methodologies for Strategic Decisions of Sustainable Development” (KORSD) <http://www.mii.lt/korsd%2D2009/> : reviewer, organiser and Chair of the stream “Optimization Problems in School Scheduling and Education Process”

Probability limit theorems

Characterization of probability distributions

Finite population statistics and statistical analysis of data

Nonparametric and adaptive statistical methods, analysis of high-dimensional data

## ***RESEARCH PROJECTS CARRIED OUT IN 2011***

### **Projects Supported by University Budget:**

- 1.** Statistical properties of complex random systems. Prof. **V. Bentkus** (before 2010 06 03), Prof. **J.K. Sunklodas**, Assoc. Prof. **M. Radavičius** (since 2010 06 03). 2010–2012.

The optimal estimates of some smooth metric in the central limit theorem have been obtained for random sums of independent non-identically distributed random variables. The rates of the convergence in the CLT for linear random fields have been established. Probabilities of high excursions of Gaussian fields have been investigated. The asymptotic rate of convergence in some kinds of U-statistics of second order was investigated. Asymptotics for the error term of logarithm of the least common multiple of a certain quadratic sequence has been obtained. The Cauchy transform of characteristic functions and characteristic distributions were considered. The rate of convergence of estimates for the Hurst parameter to the true value of a parameter was established. A new class of the so-called generalized DPR estimators was introduced and the asymptotic properties of these new estimators have been obtained. Extremal concentration problems for bandlimited functions (signals) were investigated.

Estimation strategy of population parameters based on panel data models is proposed and compared with traditional estimation strategies by means of simulation. In finite population setting, calibrated estimators of several types for covariance are constructed and their efficiency was compared by simulation. An estimator for the total of values of the study variable defined in the finite population has been proposed for two-phase sampling design with successive sampling and second phase stratification; variance and the estimator of variance have been studied.

### **Projects, Programmes, Issues Supported by Lithuanian State Science and Studies Foundation**

Project: *On functions and measures concentration* supported by the Research Council of Lithuania (adv. **S. Norvidas**, 2010-2011).

- Member of the organizing committee of the workshop on survey sampling theory and methodology in Valmiera, Latvia, August, 2012.  
<http://wiki.helsinki.fi/display/BNU/Events>

**Prof. R. Rudzkis –**

- Editorial board member of the Lithuanian Mathematical Journal,
- Editorial board member of the journal “Прикладная эконометрика”.
- Editorial board member of the journal „Lietuvos statistikos darbai”.
- Editorial board member of the journal “Pinigų studijos”.
- The supervisor of the Postdoc student Aleksej Bakshaev according to the project Postdoctoral Fellowship Implementation in Lithuania (VP1-3.1-ŁMM-01).

## **RECOGNITION PROCESSES DEPARTMENT**

Akademijos str. 4, room 307, LT-08663 Vilnius, Lithuania  
Tel.: +370 5 210 93 37  
E-mail: [gintautas.tamulevicius at mii.vu.lt](mailto:gintautas.tamulevicius@mii.vu.lt)

**Head** – Dr. Gintautas Tamulevičius

### **STAFF**

**Principal researchers (1):** Prof. Dr. Habil. Kazys Kazlauskas.

**Senior researchers (2):** Prof. Dr. Habil. Adolfas Laimutis Telksnys, Assoc. Prof. Dr. Rimantas Pupeikis.

**Researchers (1):** Dr. Gintautas Tamulevičius.

**Engineer researchers (1):** Jonas Kaukėnas.

**Engineers (1):** Linas Makutėnas.

**Senior specialists (1):** Evaldas Robertas Ožeraitis.

**Specialists (1):** Deividas Eringis.

**Technical assistants (1):** Marija Ramutė Pajedienė.

**Doctoral students (5):** Živilė Ringelienė, Gintarė Kučiauskienė, Robertas Mažeika, Gražina Pyž, Vladislav Pnevski.

### **RESEARCH INTERESTS**

Random processes analysis and recognition.

### **RESEARCH PROJECTS CARRIED OUT IN 2010**

#### **Projects Supported by University Budget**

- Recognition of short-term specific random elements in random sequences based heart rate analysis is investigated.
- The possibility to use visual features (extracted from the images of a speaking person's face) and neural networks for Lithuanian speech recognition is explored.
- Issue of recursive approach for parametric identification of Wiener systems is analyzed. An approach based on sequential reconstruction of the values of intermediate is proposed for the estimation of parameters of the Wiener system.

#### **International Science Programmes and Projects**

- ADHER (ADOPT YOUR HERITAGE). Supported by the European Union in Lifelong Learning Programme. 2009–2011. Assoc. Prof. Dr. Nerutė Kligienė / L. Mikalauskienė.

Lančinskas, M. Liogys, K. Mikėnas, A. Molytė, O. Niakšu, K. Paulauskienė, J. Pragarauskaitė, T. Pranckevičius, A. Rapečka, L. Ringienė, T. Ringys, J. Stašionis, P. Stefanovič, G. Vaira, I. Vinogradova

### **RESEARCH INTERESTS**

Data mining; Visualization of multidimensional data; Global optimization methods; Local optimization methods; Medical data analysis and decision support; Stochastic programming; Neural networks; Education data mining; Multiple criteria decision support systems; Statistical analysis of multidimensional data using neural networks; Parallel computing; Creation and computational realization of complex simulation models in epidemiology, state

education and state energy supply systems and of various other origin with uncertainty; Optimal control applications; Bayesian analysis; Network modeling.

## **RESEARCH PROJECTS CARRIED OUT IN 2011**

### **Projects Supported by University Budget**

Project title: „Decisions in optimization, modeling and visualization problems“.

Main results:

1. The efficiency of the maximum likelihood estimator of intrinsic dimensionality of high-dimensional data has been optimized.
2. The way to realize a set of methods for the multidimensional data visualization via Web-services has been developed.
3. The conditions optimizing the computational expenditure in SAMANN neural network training for visualization of large data sets have been discovered.
4. A version of P-algorithm for implementation in the arithmetic of infinity is proposed.
5. New models of financial markets are developed, the school scheduling model is improved, Pareto-Lipschitz optimization method is proposed.
6. Simplicial algorithms for copositivity detection, copositive programming and nonlinear regression have been proposed.
7. Integration of the self-organizing map and neural gas with multidimensional scaling.
8. Investigation and evaluation of influence of learning rates and neighboring functions on self-organizing maps.
9. Introduction and in-depth analysis of greedy algorithms for Parsimonious temporal aggregation operator to be used in applications that process large amount of time-varying data.

**(Pateikiamas trumpas 2011 m. mokslinės veiklos rezultatų aprašymas (apie 450 spaudos ženklų).**

### **Projects, Programmes, Issues Supported by Lithuanian State Science and Studies Foundation**

1. Project „Liquidity analysis in order to reduce investment costs in the stock markets“. Contract No. MIP-20/2010. Dr. A. Raudys. 2010-2011.
2. Project „Global optimization algorithms with simplicial partitions“. Contract No. MIP-108/2010. Dr. (HP) J. Žilinskas. 2010-2011.
3. Project funded by MITA and pursued with ORGSOFT “Methods and software for business processes modelling and visualization”, Contract 31V-145, Prof. A.Žilinskas
4. Joint Activity Agreement No. BS-580000-1892 with LLC „Algoritmų sistemos“ for the eMentorius project. 2011-2012.

### **Governmental Science Programmes and Research Projects Ordered by the Branch Ministries**

#### **Ordered Research Projects (pateikiamas vykdomų užsakomųjų darbų sąrašas (Lietuvos ir užsienio užsakovai)**

1. Innovation voucher. Contract No. 3IV-137. Dr. (HP) J. Žilinskas. 2011

### **International Science Programmes and Projects**

1. COST action „Open European Network for High Performance Computing on Complex Environments“. Contract No. IC0805. Dr. (HP) J. Žilinskas. 2009-2013.
2. COST action „Combining Soft Computing Techniques and Statistical Methods to Improve Data Analysis Solutions“. Contract No. IC0702. Dr. O. Kurasova. 2008-2012.
3. COST action „Algorithmic Decision Theory“. Contract No. IC0602. Prof. habil. dr. A. Žilinskas. 2007-2011.

4. LLP Erasmus Thematic Networks programme “Teaching, Research, Innovation in Computing Education”. Project number 142399-LLP-1-2008-1-BG-ERASMUS-ENM. Agreement No. 2008-3258/001-001. Prof. habil. dr. A. Žilinskas. 2008-2011.
5. Eurostars project “Production effectiveness navigator, PEN”, No. E!6232. Prof. habil. dr. G. Dzemyda. 2011-2014.

- Loreta Savulionienė
- Ingrida Vaičiulytė
- Ana Ušpūriienė

**RESEARCH INTERESTS**

Operational Research, Queueing theory, Stochastic Optimization

**RESEARCH PROJECTS CARRIED OUT IN 2011**

**Projects Supported by University Budget**

Application of knowledge-based technologies to monitoring, analysis and design of information networks

Wide spread of information networks becomes the engine for development of modern technologies. Computers in information networks generate enormous amounts of data, discovery and extraction of knowledge from which is an important tool for gaining concurrence abilities in the modern dynamic environment of research and business. Exploration and control problems of information networks that are the most complicated work, created by human mind and hands, are often solved by approaching the methods of data analysis (data mining) and queuing theory. However latter methods might be also successfully applied in many analysis and decision tasks, which occur in networks, existing in wide spectrum of business and social systems. Research focusses on following tasks aiming to main goals of the theme:

1. Network monitoring in on-line mode.
2. Queing methods for network control and design
3. Search engine optimization
4. Open source technologies

**Senior research fellow:** Doc. Dr. A. Lupeikienė.

**Research fellows:** Dr. S. Maskeliūnas, Dr. V. Paliulionis.

**Assistant research fellow:** L. Paliulionienė.

**Engineer programmer:** J. Miliauskaitė (part-time).

**Doctoral students:** D. Drungilas, R. Dzindzalieta, G. Gricius, M. Kaziliūnas (till 31 October 2011), M. Kurmis, J. Miliauskaitė, A. Miliauskas, S. Svanidzaitė, M. Šaučiūnas, Ž. Vaira (till 30 September 2011).

### **RESEARCH INTERESTS**

Software engineering  
 Information system engineering  
 Software service engineering

### **RESEARCH PROJECTS CARRIED OUT IN 2011**

#### **Projects Supported by University Budget**

**Service-oriented systems engineering problems.** Prof. Dr. A. Čaplinskas (leader), D. Drungilas, Prof. D. Dzemydienė, R. Dzindzalieta, G. Gricius, M. Kaziliūnas, J. Miliauskaitė, Doc. Dr. A. Lupeikienė, Dr. S. Maskeliūnas, L. Paliulionienė, Dr. V. Paliulionis, S. Svanidzaitė, M. Šaučiūnas, Ž. Vaira. 2009-2011.

Main results obtained in 2011: Subset of 23 GoF object oriented design patterns (20 GoF patterns) identified that solve paradigm-independent design problems and can be transformed into pure aspect oriented design patterns; rules to transform 20 GoF design patterns into aspect oriented design patterns; a method for modeling obstacle limitation surfaces of an aerodrome using GIS technology; a fast and effective algorithm of creating three-dimensional digital site model using airborne laser scanning (LIDAR) data; experimental software “Akis-AER” implementing the method and algorithm; evaluation of suitability of Internet service search technologies for e-commerce; software architecture for the integrated environment protection decision support system that provides tools to monitor quality of water sources and to analyze collected data using E-nets and other artificial intelligence methods; conceptual analysis and evaluation of web service composition modularization methods; proposition how to improve conceptual frameworks of service negotiation processes from the trust modelling perspective; comparison of object-oriented and service-oriented software development processes.

## **Ordered Research Projects**

*Joint Activity Agreement No. BS-580000-1892 with LLC „Algoritmų sistemos“ for the eMentorius project.* Dr. S. Maskeliūnas. 2011-2012.

## **International Science Programmes and Projects**

European joint programme *Eurostars*‘ project *Production effectiveness navigator* (pen!6232 PEN). Prof. Dr. A. Čaplinskas, Doc. Dr. A. Lupeikienė. 2011-2014.

*Agreement No. 31V-134 to fund Eurostars programme project Production effectiveness navigator* (pen!6232 PEN). Funded by the Agency for Science, Innovation and Technology. Prof. Dr. A. Čaplinskas, Doc. Dr. A. Lupeikienė. 2011.

- Proof theory of non-classical logics
- Automated deduction
- Decision procedures
- Boolean function complexity
- Lower bounds

### **RESEARCH PROJECTS**

#### **RESEARCH PROJECTS CARRIED OUT IN 2011**

##### **Projects Supported by University Budget**

Efficient proof methods for logics of knowledge; graphic structure and complexity of logic functions. Assoc. Prof. Habil. Dr. R. Pliuškevičius, 2009-2011.

The scientific research were realized in two areas: (1) automated reasoning in non-classical logic; (2) complexity of Boolean functions. In the first area, the following problems have been investigated: (a) elimination of contraction rules from sequent calculi of modal logics; (b) possibility to use classical rules in sound proof-search of intuitionistic propositional sequents. (c) partial cut elimination from sequent calculi for multimodal logics. Concerning point (a) contraction-free sequent calculi for logics KD45 and S5 are constructed. Concerning the point (b) new conditions of sound transition to classical rules in proof-search of intuitionistic propositional sequents are presented. Concerning the point (c) sequent calculi with restricted cut rule for combinations of modal logics with temporal logic are constructed. In the second area, the following problems have been investigated: (a) lower bounds for Boolean circuits of logarithmic depth; (b) the well-known Knapsack ("Rucksack") problem.

Concerning item (a), a conjecture about the minimal rank of partially defined Boolean matrices is formulated and partially confirmed. The conjecture implies super-linear lower bounds for Boolean circuits of logarithmic depth. Concerning item (b), exponential lower bounds on the complexity of dynamic programming algorithms solving the Knapsack problem are obtained.

## Ordered Research Projects

**RESEARCH INTERESTS** inference for long memory processes, modeling financial data, long range dependence, heavy tails, aggregation, self-similar processes, Levy processes, rough paths, concrete functional calculus, stochastic partial differential equations, random Hamiltonians, MV-algebras, insurance mathematics.

**RESEARCH PROJECTS CARRIED OUT IN 2011**

**Projects Supported by University Budget**

1. Stochastic Equations for Random Processes and Fields. B. Grigelionis, H. Pragarauskas. 2008-2011.

Dawson-Watanabe type superprocesses in random environment, modelled by the finite state Markov process, are defined and studied. Stochastic nonlinear filtering equations are derived. Reduced form of these eqations are also found. Pathwise stochastic differential equations with respect to functions having bounded p-variation are defined and studied. Smoothness of solutions of such equations was proved under suitable hypotheses.

2. Modeling of financial returns and statistical inferences. D. Surgailis. 2008-2011.

A statistic based on increment ratios (IR) and related to zero crossings of increment sequence was defined and studied for measuring the roughness of random paths. The main advantages of this statistic are robustness to smooth additive and multiplicative trends and applicability to infinite variance processes. The existence of the IR statistic limit (called the IR-roughness) is closely related to the existence of a tangent process. Three particular cases where the IR-roughness exists and is

explicitly computed include diffusion processes with smooth coefficients, rough Gaussian processes without stationarity assumptions, and Levy processes admitting a stable tangent process. In all these cases, convergence rates of the IR statistic are obtained.

. Conference on Multivariate Statistics and the 20th International Workshop on Matrices and Statistics, 26 June - 1 July 2011, Tartu, Estonia : abstracts. Tartu : Tartu Ülikool, 2011. p. 66.

6 Račkauskas, Alfredas. Linear processes with space varying memory // CFE 2011 : Computational and financial . econometrics : 5th CSDA international conference, 17-19 December, 2011, London, UK : programme and abstracts. London : University of London, 2011. p. 57.

#### Part(s) of book(s)

#### 01P - Mathematics

1 Kvedaras, Virmantas; Račkauskas, Alfredas; Zuokas, Danas. Regression models of macroeconomic indicators . with explanatory variables observed at a higher frequency // Financial markets: principles of modelling, forecasting and decision-making / ed. by Władysław Milo, Grzegorz Szafrański, Piotr Wdowiński. - (FindEcon monograph series: Advances in financial market analysis; No. 9). Lódź: Lódź University Press, 2011. ISBN 9788375255614. p. 87-100.

2 Grigelionis, Bronius; Mikulevičius, R.. Nonlinear filtering equations for stochastic processes with jumps // The . Oxford Handbook of Nonlinear Filtering / edited by Dan Crisan, Boris Rozovskii. Oxford : Oxford University Press, 2011. ISBN 9780199532902. p. 95-128.

### **COOPERATION**

- Massachusetts Institute of Technology (USA)
- Michigan State University (USA)
- Universite Paris 1 Sorbonne (France)
- Universite de Nantes (France)
- Universite de Cergy (France)
- London University (United Kingdom)
- Vilniaus Gedimino Technikos Universitetas

### **OTHER SCIENTIFIC ACTIVITIES**

#### **A. Dubickas –**

- Chairman of the local organizing committee of the international number theory conference 27th Journees Arithmetiques

<http://www.ja2011.lt/>

- Member of the editorial board of "Uniform Distribution Theory"
- Member of the editorial board of "Central European Journal of Mathematics"
- Member of the editorial board of the "Lithuanian Mathematical Journal"
- Member of the editorial board of "Šiauliai Mathematical Seminar"

#### **B. Grigelionis –**

- Member of Editorial Boards of the Lithuanian Mathematical Journal and Nonlinear Analysis: Modeling and Control.

#### **R. Norvaiša –**

- Associate editor of the *Lithuanian Mathematical Journal*
- Invited speaker of the confence on stochastic processes and applications in Debrecen, Hungary 2011 August 22-25.

#### **R. Leipus –**

- Associate editor of the *Lithuanian Mathematical Journal*

#### **D. Surgailis –**

- Associate editor of the *Lithuanian Mathematical Journal*.
- Visited Michigan State University in April, 2011 and gave three talks at the Probability seminar and the Statistics Colloquium of MSU.

- Invited speaker of the 33rd Finnish Summer School on Probability Theory and Statistics, June 6—10, 2011, Päivölän Kansanopisto, Finnland, gave a course „Modeling and Estimation of Stationary and Nonstationary Long Memory“ (6 lectures).

**K. Kubilius –**

- Executive editor of the *Lithuanian Mathematical Journal*
- Member of the editorial board of *Mathematical Modelling and Analysis*
- Member of the editorial board of *Proceedings of Institute of Mathematics* (Latvia)
